

# UBC MILLWRIGHTS

## FUELING PRODUCTIVITY IN THE POWER GENERATION INDUSTRY

Our Certified Rigger and Signaler Program is now accredited by the National Commission for Certifying Agency. The certification exceeds all requirements for riggers and signalers in the USA and Canada.

**In the power generation industry, staying competitive means completing outages on time, building quickly and correctly, and maintaining equipment with pinpoint accuracy.**

UBC Millwrights are power generation industry experts with the experience to solve problems and complete tasks with superior skills. UBC Millwrights are in demand in the coal, gas and nuclear power industries—and in alternative-energy plants including wind, hydro and solar.

## THE WAY WE WORK

Starting with pre-project conferences to outline the scope of the work, manpower needs and scheduling issues, our contractors keep lines of communication open throughout the life of the project. We tailor contracts to keep customers competitive and we offer foreman and superintendent training for solid jobsite leadership.

## ON EVERY WORK SITE, EVERY DAY, UBC MILLWRIGHTS AND CONTRACTORS BRING:

- **Safety:** Constant attention to safety is ingrained in our membership, from our leadership to our apprentices. Safety is designed into every UBC training program and we work with our partners to proactively ensure safety and resolve individual safety issues as they occur.
- **Dedication:** We come to work every day with a positive attitude, a professional appearance, and a determination to finish the job correctly on time, the first time.
- **Availability:** Our thousands of UBC Millwrights enable our contractors to be fully staffed at all times, which allows for quick response to emergencies and other challenges.
- **Productivity:** Meeting the schedule is key, and our disciplined, reliable crews know that fast, accurate installations are essential.
- **Flexibility:** We keep projects on time and on budget using strategies fine-tuned to customer needs. We compress schedules, adjust staffing numbers and modify work-hours, work-days and work-weeks to get the job done.
- **Customer Service:** We finish projects according to the customer's satisfaction—and we follow through with training, maintenance and customer service. One call puts the best-trained maintenance crews at the work site to get the system up and running as fast as possible.

## OUR EXCELLENCE IS GROUNDED IN TRAINING— AND PARTNERSHIPS

Led by an international Labor-Management Committee, the UBC Millwright program seeks out industry partnerships with the goal of delivering exactly what is needed on every job. Our partners include Siemens Generation Service, General Electric (APM), First Energy, Exelon and others, all of which assist in our training by providing equipment, expert consultation, guest instructors, and more.

For example, when a demand for turbine experts surfaced, we worked with industry leaders Atlantic Plant Maintenance and Siemens to develop **gas and steam turbine qualification programs** to train our Millwrights in the newest power plant technology. The UBC's International Training center in Las Vegas now hosts a turbine training facility with equipment from these partners for hands-on instruction.

UBC Millwright training also includes technical categories such as rigging and signaling, aerial lift, machinery alignment, optical alignment, forklifts, scaffolding, welding, and bolt tensioning.

## SAFETY: OUR TOP-PRIORITY BUSINESS DELIVERABLE

The UBC believes a safe work site is achieved only through comprehensive training for every Millwright on every project. Our members complete and master these health and safety training programs:

- Cardio Pulmonary Resuscitation
- Confined Space Worker Safety
- Ergonomics
- Fall Arrest
- Lock-out/Tag-Out Safety
- SDS Safety Data Sheets
- Millwright Health & Safety 16-Hour Course
- Occupational Safety & Health Act 10-Hour Course
- Scaffold User Safety
- Pre-Task Analysis, Jobsite Safety Analysis

**Bottom Line** By using UBC Millwrights, you are assured quality, productive work, from pre-planning to maintenance. Our promise is simple: ● We will work safely, accurately, and dependably. ● We will respond to all requests promptly and will deliver the service that we promised. ● We will communicate early and often and will involve the customer every step of the way. ● We will complete projects according to specified schedules with pride and integrity.

**Your goal is our goal.**
